

Changes in the supplier profile on the supplier portal

Transparency and up-to-date data are essential for a long-term partnership and a successful business relationship.

For this reason, KMW has created the Supplier Portal for suppliers or registered companies, which enables you to keep your company and contact data up-to-date and edit them at any time via an individual profile.

Only a few steps are required to update data in your supplier profile:

(1) Login in your supplier profile

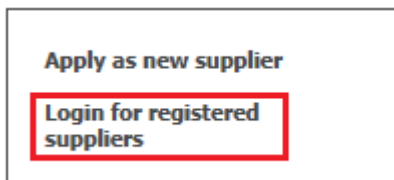

After your registration the login data was sent to you. This gives you constant access to your individual supplier profile in the supplier portal. All you have to do is log in under the following link:

<https://sp.kmweg.de/portal/kmw>

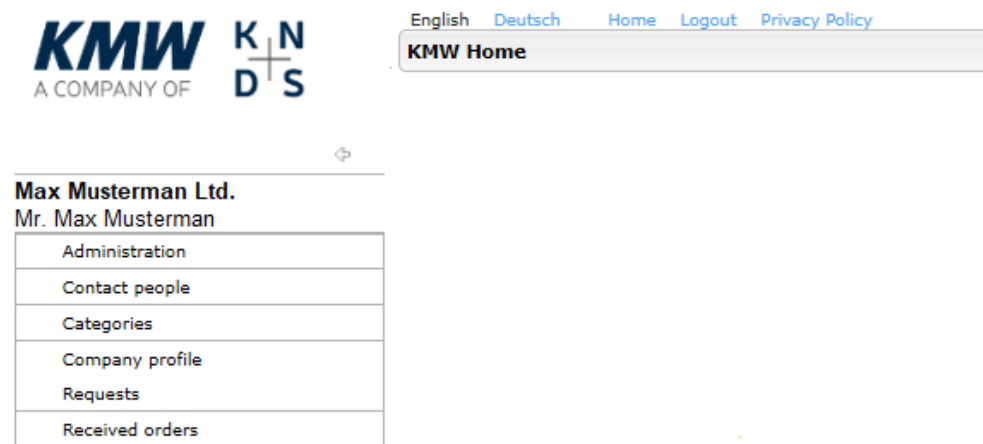

Alternatively you can visit our homepage via the link

<https://www.kmweg.de/einkauf.html>

and log in via „Login for registered suppliers“

After your login, your supplier profile opens and you can select the relevant items for editing in the menu tree:

(2) Editing your supplier profile

You can navigate through the subject areas in the supplier profile using the following headings. The structure of the supplier profile is divided into the following headings:

- Administration
 - Contact people
 - Categories
 - Company Profile

 - *Requests*
 - *Received orders*
- } (not relevant for profile data)

In the *Administration* and *Contact people* areas, you can change your account and user data and maintain the corresponding contact persons within your company.

Among other things, you can name different people in your company with different roles (sales, quality management, ...) and thus ensure increased transparency within the responsibilities on the Supplier Portal.

In the *Categories* section you can assign yourself to specific categories and thus define your specific product portfolio in which you would like to cooperate with us or supply us.

ATTENTION:

The assignment process to a category group has two levels. As a supplier, you have the option of selecting your category group using a radio button and a checkbox. The radio button defines your main category group and is decisive for which assignment is selected at KMW for your profile. This radio button is a mandatory entry and may only be selected once! If you want to offer other scopes in addition to your main category group, you can select them using the checkboxes next to the radio button. Multiple selections are possible here and thus several further "sub-categories" can be selected.

Save Expand all Collapse all

Please choose your main category (radio button) and all other categories (checkboxes)!

Categories

search categories:

Pneumatic/Hydraulic Systems

- Drive/Pumps
- Fittings/Faucet
- Pressure Container
- Cleaner
- Ducts
- Hoses
- Quick Couplings
- Controls
- Valves/Maintenance Units
- Screw Connections (Hydraulics)
- Cylinder Pressure Systems
- Accessories Manufacturer Specific

Tools/Utilities

Standard parts/mechanics

Power train

Chassis

Pneumatic/Hydraulic Systems

- Drive/Pumps
- Fittings/Faucet

Checkbox (multiple use)
Radio-Button (single choice)

In the *Company profile* section you have the possibility to keep your company data always up to date, divided into different categories:

Company profile
General
Ownership
Business
Products
Certifications
Quality

Company profile	Your individual data
General	Entry of your general business data (year of foundation, turnover, product portfolio etc.)
Regulation, Risk and Compliance	Information on compliance issues
Business	Specification of bank data and similar business relevant information
Products	More precise recording of the scope of services with regard to manufacturing and production
Certifications	General registration and administration of existing certificates and proofs
Quality	Information in the field of component testing, quality management and audits

On our own behalf...

... data management is an essential component for efficient cooperation.

We would therefore like to ask you, as a supplier, to play an active role here by using your supplier profile to keep your data up to date, to deposit corresponding changes within your own organisation there and thus make a significant contribution to the success of our business relationship.

Thank you very much for your active cooperation and support!

Should you have any questions and/or suggestions until then, please do not hesitate to contact us:
